

CAREER EXPLOR!

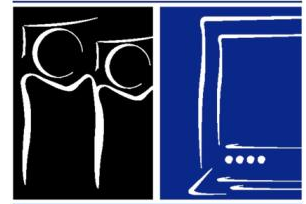

HIGH TECH *Summer* Experience

- Jam packed week of fun and new experiences
- Discover your personal strengths
- Explore occupations that use your strengths

We will travel to places in the area where people have jobs and do things that you will want to learn about.

We will look at the sun for spots through a huge telescope, talk to an auto mechanic, cook a lunch, visit a hospital, watch a newspaper being printed, play drums, take photographs, practice meditation, skim a pond for water life, and more, more, more!
