

disABILITIES Expo 3 is a terrific opportunity that the School Psychologists (PEERS) in the Brandywine School District will be offering on April 26, 2006. PEERS, in conjunction with Delaware Guidance, and sponsored by AstraZeneca will be hosting disABILITIES Expo 3. Expo 3 is being organized to provide information to community member, families, and school staff regarding services that are available. Local service provider agencies along with various support groups will be present to give information to the community regarding their prospective agency. The organizations will be applicable to various disorders and conditions impacting our children.

Expo 1 on April 16, 2002 and Expo 2 on April 27, 2004 were successful events for all parties. We are aiming to surpass that effort with Expo 3. *Expo 3 will be on April 26, 2006 from 6-8pm at Mount Pleasant Elementary School in the all-purpose room.* The target population of those attending is parents, families, and community members who have disabilities within their home. Attending will also be school personnel and other professionals who work with children with disabilities.
